Class Managerie

To the Members of the Class of 1961

I am happy to give warm congratulations to the class of 1961 upon the completion of the four-year undergraduate program at the State College at Boston. This class has been an outstanding one, representing the very best traditions of the teaching profession. An earnest desire to learn has characterized the group, while an excellent spirit of co-operation has shown itself in all activities.

As the world heads into the age of space, the future presents not only great problems but also unlimited possibilities. Your education has given you the basis for overcoming all difficulties. Whether you succeed or not depends upon your own confidence and courage.

I firmly believe that the same fine attitude you have shown during your years at State College will lead you as individuals to a constant development of your scholastic and professional abilities as well as to a vigorous participation in the affairs of your community and nation.

May God guide you in all your endeavors.

Senior Class Officers

Joanne Venuti (Vice-president), Roberta Barra (Secretary), Ronald Haley (President), Arleen Mahoney (Treasurer).

Those of the graduating class of 1961 have reason to be proud of their achievements here at Boston State College. The class has unselfishly devoted itself to a spirited participation in both academic and class activities. Already, too, we have made our small contribution to the world of education through our practice teaching.

In the last four years we have seen our college take definite steps towards developing a liberal arts curriculum and recently acquire the right to grant a wider range of degrees. The future, however, holds even more promise for our class. The country is growing at a rapid pace in education as well as in other professions. It is our responsibility to keep step with these changing times and to meet with confidence the challenges they present.

I am sure the solid foundation we have built under the guidance of our college will help us to accept the responsibilities of the future.

In Memoriam

Rita Griffen

We regret most deeply the untimely death of Rita Griffen. Rita was a popular member of the Senior Class. She epitomized what the good teacher should be, and for her contributions to the Newman Club she was awarded an honor key in the John Henry Newman Honor Society. Her student teaching was interrupted by a period of illness, followed by her death on November 21, 1960.

Cynthia Cohen

We were saddened at the opening of the second semester of our Sophomore year by the death of Cynthia Cohen. An honor student and math enthusiast, Cynthia achieved top honors in her class and popularity among her classmates. We are deeply sorry to have lost such a fine person.

Class Essay

The role of the teacher in contemporary society should be one of leadership. Traditionally, the leadership of the teacher has been more an ideal than a reality. Neglectful educators have been able to close the doors of their classrooms on responsibility. They have been able to teach in isolation apart from the pulse of current events. But today teachers can no longer afford passivity. The threats to our way of life combined with the growing closeness of all nations have made it necessary for the teacher to assume a new role. He must make leadership a fact.

Leadership does not mean power over people, but power with people. It must be the activity of influencing people to co-operate and to participate in the achievement of goals which are desirable to all. The teacher as leader must be a vital person with a social vision who actively participates in community and national responsibilities.

What is a vital person? He is one who has developed his personal resources. He develops his social resources by being alert and informed on current developments and by social contact with persons in all walks of life. He develops his aesthetic resources through music, art, and drama, and his intellectual potential through formal or informal education. The depth of his moral awareness will determine the depth of all his resources. Through personal enrichment he will increase his ability to help children grow and develop.

Never has the power of ideas held so much importance as it does today. The teacher must relate the basic principles of education to the democratic ideal. He must develop knowledge to help others understand and grow in this technological world. He must foster the power to give service through the enlightenment of public opinion.

The teacher as an active participator in society must find ways of developing his strength in behalf of purposes in which he believes. During his college education, he learned to think through taking courses and planning activities. Once out of college, the teacher must continue to learn, to think, to evaluate experience in order to meet his responsibilities. College has given him the principles needed for growth. It is up to him to use them persistently in developing his potential for leadership.

Class Poem

Today we leave thee, Alma Mater.
Years have swiftly come, then gone.
Although we sing and shout with laughter,
Inside our hearts are torn.

As our footsteps fade to silence,
As our voices die away
Still with us through all the long years
Walks your spirit as today.

You have given desire for knowledge
We must keep our minds alive.
You have given the gift of wisdom
We must use it as we strive.

Now the challenge of the future
We with vigor turn to face.
You have taught us each to meet it
Both with courage and with grace.

For one last time let us clasp
The hands of classmates, friends so dear
And vow that distance shall not part us—
Memories will keep us near.

CLASS HISTORY

IN THE FRESHMAN YEAR

For most of us our first acquaintance with College came on Orientation Day when we were introduced to undergraduate life by our Junior brothers and sisters. We could scarcely understand then how they, so eager to help us on the first day of classes, could "lord it over" us so during the time of orientation. The evening of Orientation Day we were formally received into the "Big Happy Family" at the Student Government All-College Banquet.

Having discovered the student lounge, then in its first year, we sometimes found the library a lost cause. The cafeteria was the center of wild hustle as we raced for tables and for places in the line, at the end of which was the ever-calm Fred and the cash register.

As the year progressed, some of our classmates began to find interests in the vicinity of the college while others kept busy planning class functions. Our class showed its flair for dramatics in the One-Act Play Contest with the entry, "Auf-Wiedersehen." Some students put their talents to work in the variety show called "Who's Hugh?" A few of our more serious-minded classmates were soon found picking daisies for the Senior Daisy Chain or soaking in all the beauties of nature on our Fenway campus. Our first major class undertaking was "April Showers," hailed as a huge success.

As finals drew our first year to an end, we found ourselves ready for our roles as sophomores.

SOPHOMORE YEAR

As sophomores we felt the world was ours. The biology laboratory housed some of our new friends; we met Freddie the Frog and Willie the Worm. The world of the deep was ours every week at the "Y".

To the disappointment of all sophomores, the library was closed in the middle of the year. The construction that was to change parts of our buildings almost entirely began to take place, and we completed our sophomore year without an assembly hall or library. Reluctantly we followed the well-trodden path to the lounge.

As February approached we became hosts at the "Mardi Gras Ball," a gala affair with masks provided. We were also successful at the One-Act Play Contest. Sophomores captured awards for Best Play and Best Actor.

With construction and confusion as our background, we plowed through our final exams and thus became upperclassmen, a little older and a little wiser.

JUNIOR YEAR

The tables were turned; now we were at the top of the ladder during the Freshman Initiation and Orientation. Because of our newly gained position and ever-increasing maturity, the Freshmen discovered that Junior sisters and brothers were not as hard and cruel as predicted but really quite accommodating. The Juniors, however, went through an initiation of their own: we were introduced to our first methods courses along with our weekly trips to the model school where we were able to put this newly-acquired knowledge to work. By the middle of the year we were cheering the completion of the new shower rooms. We also witnessed the grand opening of the remodeled library.

Our social calendar began with "Cafe de Paris," and the pride of the Junior Class was the winning of the One-Act Play contest. We walked away with all three awards. And we were certainly great spaghetti eaters, as the spaghetti supper and Square Dance showed. We never quite realized the versatility of our boys until we saw them cut those squares in the lounge!

Junior Week began on a serious note with the Parents Tea and Reception. Because of unavoidable circumstances caused by the changing of the name of the college, our rings were delayed, and the holding of a Ring ceremony became impossible. We jumped into our next event with vim and enthusiasm. The Junior Banquet was a huge success, and the entertainment provided was of the highest and most serious type, certainly befitting the dignity of the occasion. Thursday of Junior Week, the exhausted Juniors enjoyed a relaxing night at the Pops. And the frosting on the cake was provided by the Junior Prom in all its pomp and splendor. Carol Hughes lent a royalty to the affair that completed the fairy-tale atmosphere. Thus, in the light of this grand finale, we became seniors.

With the realization that this was to be our last year, we worked to make it our most memorable one. Some of us "in" and some of us "out", we managed to hold our first official function, the Cap and Gown Ceremony in the college courtyard. The somber attitude with which the caps were donned was also evident in the lines of the "Alma Mater." The Social Calendar was headed by "Gypsy Melody" with an atmosphere created by caravans, tamborines, and fans. With the cooperation and enthusiasm of the Seniors, the Christmas Fair was made into a hectic success. The class of '61 again displayed its talents in the One-Act Play Contest and the college musical. We paid tribute to our instructors at the Faculty Tea and then to our cooperating teachers at the Training Teachers Tea.

The end of exams was just the beginning for most of us. Senior Week started with the Baccalaureate Ceremony, followed by the night at the Pops. The Senior Banquet proved a highly enjoyable affair. At the Class Outing we spent the day in fun and in the recollection of memories. Class Day brought the traditional Daisy Chain and class gift that was presented to Dr. Looney. Planting the Ivy, we left our final memento to the College. The Senior Prom at 1200 Beacon Street lent an air of enchantment and elegance as Seniors danced their way through a memorable evening. The Commencement Ceremony found many tears and brought our class to the end of its college career. With one responsibility gone, a new one was taken on, and each is now ready to go his chosen way.

SENIOR YEAR

Helpful Hints

For Future Teachers

Being a teacher of immense experience (sixty-four lessons: forty wins, sixteen losses, and eight ties), I wish to give some invaluable tips to you as you prepare to start teaching in the fall. (This isn't meant for the handful of seniors who do not intend to go into the teaching field, but other fields where they think they will achieve greater happiness. The word happiness, in this case, is synonymous with money. Also, this isn't meant for those few seniors who will not make it this year. Sorry, fellas. Maybe next year.)

First of all, it is essential that a teacher belong to organizations, particularly those with national and international connections, the most important being the T.G.I.F. Club (Thank God, It's Friday) and the O.H.I.M. (Oh Hell, It's Monday). Second, a beginning teacher should familiarize himself with the school. If the office gives out a diagram, take one. Make sure that you put the name of the school on the diagram. I didn't. I confused the school diagram with one of the Boston Garden and found myself meeting my first class near the clock which hangs from the roof.

You must be a good interior decorator. Brighten your classroom, not to make the students more at ease and give them an environment in which it is more conducive to learn, as the educators suggest. You brighten your room for your own sake. After all, who likes to be in a drab and dreary-looking room all year long. You would go crazy. This is one reason why the introduction of green chalkboards was one of the greatest improvements in education since the Sophists started to charge money for teaching. But you must be careful about the way you decorate your room. I knew one teacher who was going to have his room completely green one week, yellow the next, orange the next, red the next, and brown the last. He planned it to coincide with the changing colors of the leaves in fall. However, in the second week, he caught yellow Jaundice, and they couldn't find him for three days.

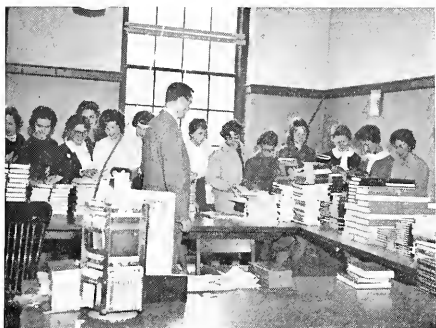

One easy way to get ideas for room decorating is to look for a coming holiday. For instance, at Thanksgiving time, put up Turkeys and Pilgrims on the walls. At Christmas put up Santa Claus. At New Years, put up labels from Alka-Seltzer bottles.

When you meet your first classes, be firm with them. Let them know that you are boss. If a student asks you for cigarette, call him up to the front of the room, look him sternly in the eye, and say in a gruff tone, "I'm out of cigarettes now, but if you can change a half-dollar, I'll get some in the Teachers Room for you." If you intend to keep a few students after school because they set your lesson plans on fire, be implacable. One boy says he has to get to work. Another says he will be late for a Boy Scout meeting. A third says he has an appointment for an audition for the Dick Clark Show. You must act with firmness. Say, "O.K. You can go, but don't let it happen again."

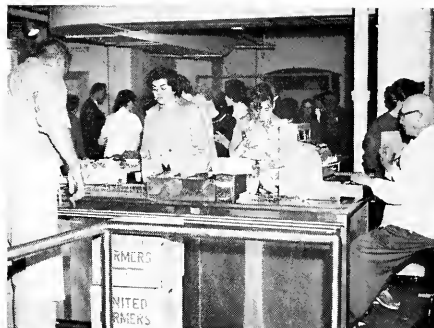

It will help if you become familiar with your students even before school starts. Check the office files for records. The local newspapers usually devote a column or two to the schools. But, more than likely, you will get the most important information from the police files. Don't, however, let these records influence your marking of students. Remember, a boy can raise his marks quite a bit from year to year. Maybe his school environment improves, maybe his parents learn to love him, maybe he gets new glasses, or maybe he is seated next to a brighter pupil than he was last year.

Here are some suggested shortcuts for grading papers: Anyone who disagrees with you automatically loses ten points. Anyone whose first sentence makes sense get five points. If a student spells your name correctly, give him a few points. If he spells his own name correctly, do the same. Don't grade homework papers and return them. You might embarrass a few parents.

Boston State offers an excellent variety of extra-curricular and social activities. Arranging dances, plays, musicals, banquets, teas, and other events leaves the Student Government officers and committees with little time. Then there are the added duties of running elections, and raising and regulating funds for all activities, including sporting events, the college newspaper, and club enterprises. In short, the Student Government Association is the promoter and coordinator of all the social activities at the college. The primary purpose of the SGA is to engender that spirit which gives life and unity to the college program.

Getting editor's OK

Each month a staff of about thirty-five publishes *Chaulkdust*, the student newspaper at Boston State. Reporters are on hand for all the important events at the college. Writers concerned with news, features, editorials and sports rush to meet their deadlines, while the business staff searches for ads to help finance the operation. Eventually, a welter of material reaches the printer. After it is cleaned, pressed and polished, the result is a fine edition.

Drama Club

The Drama Club has long been one of the most active and outstanding groups at the college. Our class has been fortunate to be able to bask in the reflected glory of students like Paul Zakrzewski, Beverly Bowe, Don Botsch, and many others. Performances such as those given by the casts of *Medea*, *Good News*, and *The Glass Menagerie* have served to belie the amateur standing of the group.

The Literary Club is one of the most enjoyable groups on campus. Much of its recent success can be attributed to Eileen Feeney, Mary Anne Nappi, and Cathy Driscoll, in addition to many other loyal supporters. Members of the Spanish Club enjoy the experience of conversing in the Spanish language and participating in several Spanish plays. Movies, slides, and exhibits are also shown throughout the year.

Basketball

How

can you say a losing season is a successful one? You really can't. The Warriors ended the season with a record heavy in the loss column — 11 losses, to be exact, and only 7 wins. There were, however, "moments to remember." One factor in the team's favor was the fever-pitched fight they showed in every contest. They were badly beaten only three times; half the losses were decided by six points or less.

But the significant element, which some feel made the year successful, was the visible change in the attitude shown on and off the court by our opponents. In the past, Boston was very often classified as a push-over. It was almost conceded that the Warriors were entered in a league that was over their heads. It was not too many years ago that Boston did play in a far less competitive schedule. In the 60-61 season the hoopsters won the recognition

and respect they were looking for. They were a hard-fighting crew, and every team that came against them knew it.

Men like Jim Walsh, who captained the Warriors; Leo McSweeney, who was captain in his Junior year, a consistent scorer; and Lou Jennings, a good man in any rough game were three Seniors who gave strength to the team. Underclassmen Pete Larson and Frank Donnellan were welcome additions to the veterans and deserve much praise for dependable play-making and scoring success. Tommy Kelly was a cool backcourt man who seemed to drop in 30-foot sets as if he didn't know how to miss. Charlie King, inch-for-inch, proved to be one of the best rebounders in the league. Jim Carey's speed, hustle, and defensive ability were valuable team assets.

Coach Tedesco was proud of the team's showing for the season. Perhaps the overall record would have been better had not Leo McSweeney's time of eligibility run out. The Warriors lost three

of the last four games without Leo's services. He had shown himself to be one of the outstanding players in the league, and no team can easily give up a star without suffering the consequences.

Much of the team's confidence was due to Captain Jim Walsh. His bearing on the floor gave no hint of apology. Lou Jennings, Leo McSweeney, Frank Donnellan, Tom Kelly, and Pete Larson could be counted on to hit double figures. There were games when the scoreboard was less generous to us, but teams like Westfield, RICE, Keene, Gorham, and Lowell tasted defeat at the hands of

the Warriors. The loss to Bridgewater was in overtime, and the losses to Salem and Fitchburg were sea-saw battles which could have gone either way. The two losses to Worcester need no excuse. Worcester had a better team, and it showed in the final score.

The 60-61 season proved that the Boston squad could explode against anyone. The Warriors won the reputation of being on the war path in every game. Unless their opponents were up for a tough contest they were scalped.

Baseball

Last year's Warriors baseball team was far and away the best in the history of the school. In completing the season with a 14-4 record the Warriors brought two titles to the school for the first time: the New England Teachers College Athletic Championship, and the National Association of Intercollegiate Athletics New England Regional Championship.

The squad, with six juniors as the nucleus, played top ball from the opening swing. These six juniors were Lou Jennings, a flashy second baseman, Jim Walsh, a cat around the third base bag, Leo McSweeney, a hard-hitting outfielder, John Cloherty, one of the aces of the staff, Larry Aiello behind the plate, and Captain Joe Bage at first base. These six, along with underclassmen Paul Hughes, John Conley, Red Martell, Bob Gianusso, and Henry Vigdor held down starting positions.

As the season started, there was much hope that the squad would improve on the record of the previous year, when it had won seven games and lost seven, four of the

latter being by one run. And there certainly was an improvement in 1960. After four games, the record read 3-1, and with this came talk of a championship. By the first of May, the Warriors were 6-1.

Now the big moments drew near. Boston was invited to compete in the National Association of Intercollegiate Athletics Tourney for the New England Championship at New Haven. The winner was to enter the playoff for the Eastern States Championship, and the one victorious, at this point was to be given a trip to Sioux City for the National Finals.

As the competition began, Boston drew Stonehill College for its first opponent. The Warriors, though playing one of their poorest games of the season, managed to sneak by with a 5-4 victory. Moving into the semi-finals, the Warriors met highly rated Central Connecticut College (formerly New Britain Teachers College), and after a difficult game were victorious by a 1-0 margin.

The stage was now set for the championship game.

1959-60 BASEBALL TEAM

Front Row: Coach Sullivan, Jennings (2b), Aiello (c), Bage (1b), Walsh (3b), McSweeney (c.f.), Cloherty (p). Back Row: Hughes (c.f.), White (c.f.), Vigdor (p), Collins (l.f.), Conley (ss), Gianusso (p).

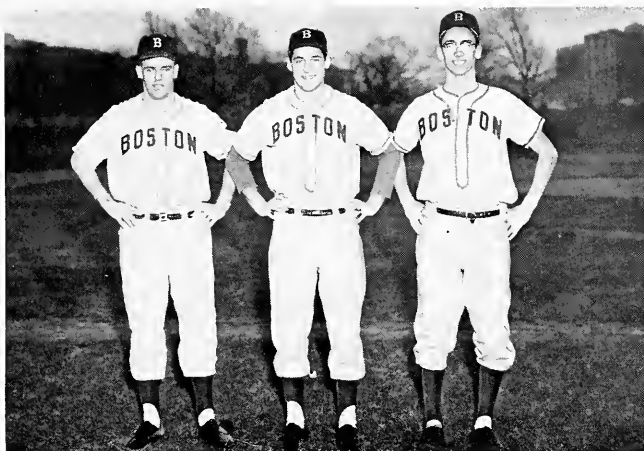

The Warriors were to meet Southern Connecticut State, a team that had romped in its semi-final game, 13-2.

As the two teams prepared, the talk was that Southern would romp over the Cinderella team from Boston. As soon as the first inning was over there was no more talk. Boston had scored three times, two on a long triple by Leo McSweeney. Southern came back in their half of the first with two, making the score 3-2. In the second, Boston scored again on a home run by Lou Jennings. In the third, Boston wrapped it up with five runs, the big hit being Joe Bage's home run. Paul Hughes hit a tremendous two-run homer in the fourth to make the score read 11-2. From here on John Cloherty, one of the "Big Three," had nothing to worry about as he pitched Boston to the 17-6 victory and the first championship. Along with this championship came the right to compete

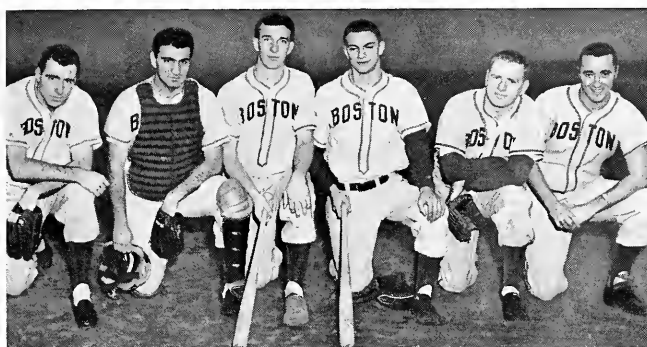

in the Eastern Regionals to be held at Stroudsburg, Pennsylvania.

After winning the N.A.I.A. Tourney, Boston came back to battle for the Conference championship. The Warriors, still up in the clouds over their big wins in Connecticut, were ambushed by Fitchburg, 4-3. Once more the pressure was on the Warriors, and again they came through by winning five of their last six games to take the Teachers College Conference Championship. What made this feat more amazing was that they won the title on the home field of the defending champion—Plymouth (N.H.) Teachers College.

With the N.A.I.A. Regional Championship and the New England Teachers Conference Championship secured, the Warriors headed, in early June, for the Eastern finals. After drawing a bye, the Warriors were pitted

Cloherty, Vigdor, Gianusso, the rubber arms of the staff.

Veteran strength — Jennings, Aiello, McSweeney, Bage, Walsh, and Collins.

against the Indiana (Pa.) State Teachers College for the Eastern finals, the winner of the game to represent the East at Sioux City.

After four innings, the score read, 2-0 Boston. Things looked optimistic for Boston. Then came the crusher. In the fifth inning the Indiana team scored four runs on a grand slam homer and that was the ballgame. Indiana later scored two runs to win, 6-2.

Though the season was over for the Warriors, they could feel proud of a job well done. This squad had won the first championship in the history of the College and had gone further than any other New England Teachers College Baseball Team. Last year's squad lost no seniors, and the six juniors are now seniors. Will it be ON TO SIOUX CITY this year?

WRA

Growth has become the keyword of the college during the past few years. It has been the watchword of the Women's Recreation Association since the club was organized. This growth has been evidenced not only in the number of members participating, but also within the individuals involved in the organization. The WRA has continually striven to offer a varied program to meet the needs of all the women students because the organization has been guided by students who firmly believe a college education consists of more than just attendance in classes.

The growing spirit at Boston State can be shown by the tremendous increase of interest in activities and special events offered by the WRA. The club has done a great deal to foster a spirit and a sense of loyalty so necessary to form a common bond among people with varying interest and talents. Committee work, special events, conferences, intramurals and the opportunities for intercollegiate competition have all contributed greatly to the rise in the "esprit de corps" so necessary to complete the picture of college life.

The aim of the program was to offer recreation and activities for the women students of the college. During the years the WRA has offered an increasing number of activities and special events for the women and, in some instances, for the men students. The program has continually expanded to meet the needs of the ever-growing student body.

The Student-Faculty Volleyball game has become a college tradition. Each year the students look forward to the game and the antics that are a part of the event. In the past two years the men of the college caught some of the spirit of the event and assisted their respective teams in order to raise money for the library book fund.

WRA OFFICERS

Linda Farley (*Publicity Director*), Mary Coffey (*First Vice-president*), Margaret Murphy (*President*), Judy Barasso (*Secretary*), Marjorie Kashkin (*Second Vice-President*).

The Co-ed skating party has become an annual event at the college. It was originally initiated in order to obtain money for the book fund.

Archery, fencing, tennis, volleyball, badminton, golf and modern dancing are only a few of the activities which we have participated in during the past four years. Our basketball teams have continually improved, and have brought credit to the college because of the spirit and sportsmanship of the players involved. The WRA has also served to strengthen our relations with other colleges in the area. The students of our college have had the opportunity to visit many other colleges through the playdays and sportdays offered in the program. This is, at present, one of the few available channels for inter-collegiate activities.

In the past four years the organization has grown to the extent that it was possible to hold annual banquets and initiate an award system based on participation in the program. Realization of our needs as future teachers brought such noted speakers as Dr. Peter Guild and Dr. Josephine Rathbone to our banquets. This year Dr. Minnie Lynn, nationally known leader in Physical Education, was the main speaker.

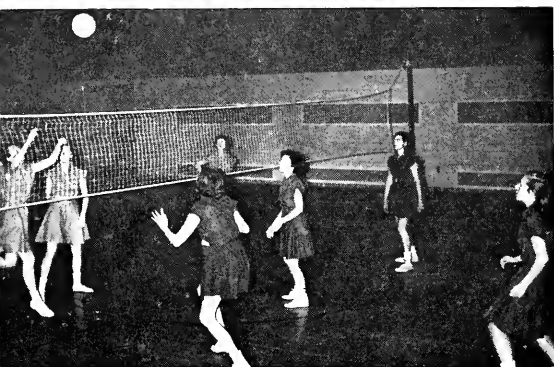

The aims of the association have been many: the recreation of the student, the offering of opportunities to develop leadership and organizational abilities so necessary to a teacher, the development of interest in the athletically unskilled, and the offering of opportunities to compete with others for the highly skilled. The operation of the WRA depends on the interest and efforts of the students. Its success or failure is a student problem. Unlike most clubs, the WRA has had in reality five faculty advisers who have devoted a great amount of time and effort to the development of a program which would meet the needs of the students. Only the enthusiastic efforts of interested activity leaders and officers, and the continued support of the faculty of the Physical Education and the Administration of the college could, and did, insure success.

In Closing . . .

Early in the year the editors of *Lampas* met to make preliminary plans for the 1961 edition. Although it is hard for two editors to agree on the exact format of a publication, it was easy to agree on one point — that the 1961 *Lampas* would be the best yearbook possible. With this goal in mind, the staff wrote material, made designs, contacted business firms for advertisements, and attended to the thousand other tasks associated with putting out the book. We sincerely hope that we have given *Lampas* distinction, that we have made it different from other yearbooks. We hope that when you look at it twenty years from now, it will bring back pleasant memories. May you have the best of luck in this coming vacation and in the years to follow.
